Define the Problem Statements Template: Auto Ticket Classification using Flow Designer

Date: 30 September 2026

Team ID: [SWTID-2026-3230]

Project Name: Auto Ticket Classification using Flow Designer

Maximum Marks: 2 Marks

Customer Problem Statement Template

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS) Entries

Problem ID	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a school teacher managing classes and technical equipment	quickly report IT incidents like projector failures, Wi-Fi outages, or slow computers	it takes a long time for tickets to be manually reviewed, categorized, and assigned by IT staff	the IT helpdesk relies entirely on manual triage of incoming descriptions without automated keyword routing	Frustrated and hindered in delivering uninterrupted lessons
PS-2	a student requiring online portal access and campus network connectivity	get immediate resolution for password reset or Wi-Fi connection issues	my support requests sit in a generic queue awaiting manual assignment, causing	there is no automated classification system to parse description keywords and immediately	Stressed and anxious about missing study deadlines

		prolonged downtime	route requests to the correct resolver group
